Release Notes

Managed Access Gateway

Version 7.10

Draft Edition (April 28th , 2025)

This edition applies to the current release of Managed Access Gateway (MAG) and to all subsequent releases and modifications until otherwise indicated in new editions.

Features and Enhancements

Items	Description	Case ID
1.	We have improved the text guidance when an org admin is adding a user without subscribing them to any applications, to clarify next steps.	MAG-9451
2.	We have updated the user activation process so that security questions are no longer required to set up a new account.	MAG-9112
3.	We have added support for bulk suspending, unsuspending, and deleting users by org admins to streamline user management using the bulk actions beta functionality.	MAG-7737

Closed Issues / Defects addressed in this release

Items	Description	Case ID
1.	We have removed the additional questions that SP admins need to answer before they can approve a request.	MAG-9599

2.	We have increased the character limit on the deny text box when rejecting a request.	MAG-9681
3.	We have resolved the issues that prevent successful role management through the new role management feature.	MAG-10431, MAG-10443, MAG-10443,
4.	We have updated the "Read more about account connections" link so it points to the right page.	MAG-9153
