EXOSTAR

MAG Release Notes

Version 8.1

Exostar LLC

Samuel Boateng

Draft Edition (August 5th, 2025)

This edition applies to the current release of Managed Access Gateway (MAG) and to all subsequent releases and modifications until otherwise indicated in new editions.

Features and Enhancements

	Description	Case ID
1.	We have updated the system to allow Service Provider Admins to unsuspend organizations for their applications, except when the suspension was applied by an Exostar Portal Administrator (EPA).	MAG-9529
2.	We have updated the requests approval UI to allow exporting results to Excel, with options to download page results (25/50/100) or all results (up to 5,000).	MAG-9606
3.	We have updated SCIM provisioning with a customization that allows stripping the country prefix from region codes (e.g., US-CA → CA). Note: Available only to organizations that use SCIM provisioning.	MAG-9827

Defects

Description	Case ID

1.	We have fixed a UI display issue in Role Management where Service Provider names overlapped when an Admin had multiple applications assigned (no functional impact). Note: Available only to EPAs.	MAG-10819
